

SmartPack Labelling System

Pack smarter, not harder.

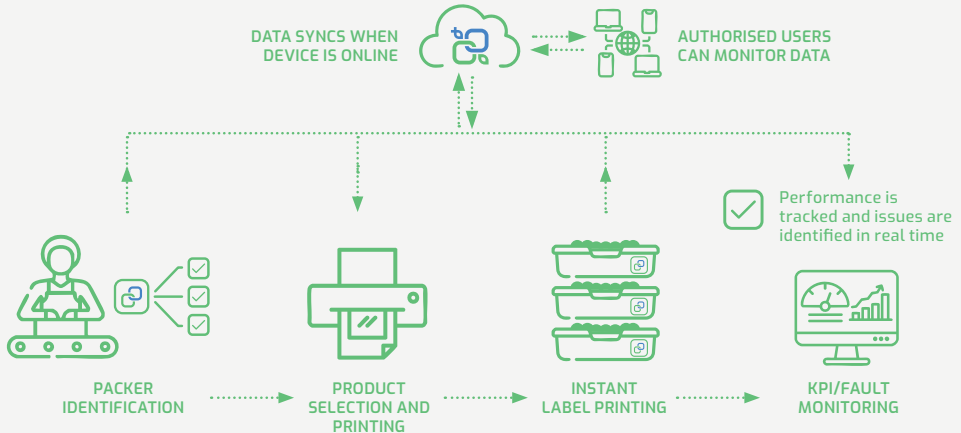

FreshTrack

Farm Smarter

Simple, efficient and accurate wristband, button, scanner or touchscreen labelling.

FreshTrack's SmartPack Labelling System lets packers print accurate carton labels instantly with a scan, push, tap or swipe.

Touch or Swipe Activation

Instantly print the correct label with a simple push, tap, scan or swipe.

Faster, Error-Free Labelling

Eliminate manual entry and ensure the right label every time.

Hands-Free Efficiency

Wristband scanning improves workflow with minimal disruption.

Streamlined Tallying

Scan cartons to pallets for faster, more accurate tallying.

Customisable & Scalable

Fits any shed setup and integrates with FreshTrack systems.

Live Data & KPI Monitoring

Track performance and efficiency in real time.

Upgrade your packing shed with seamless labelling

Get in touch today to see how FreshTrack can improve your accuracy, efficiency, and traceability.

AutoPack Labelling System

Automate your shed operations.

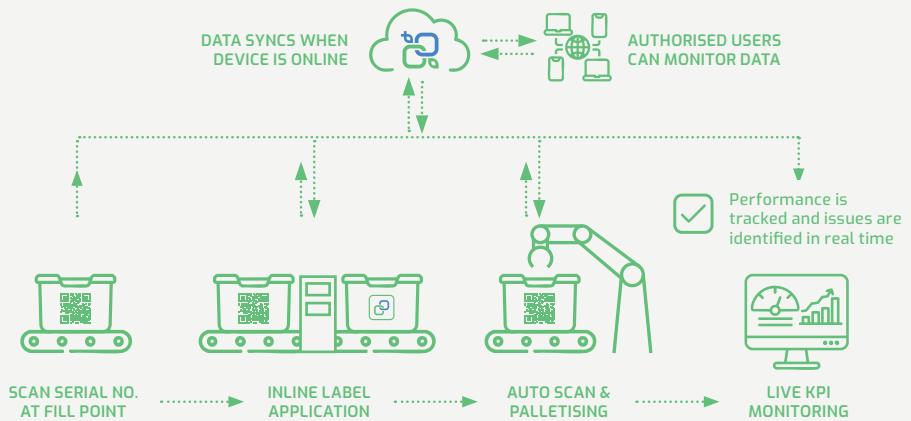

FreshTrack

Farm Smarter

Seamless scanning and labelling for automated packing in the shed.

AutoPack fully automates the critical steps of scanning, labelling and tracking punnets - minimising errors and maximising efficiency across the packing line.

Automated Data Capture

Creates a traceable digital record for every carton at the point of filling.

Error-free labelling

Reduces risk by removing human error from the labelling process

G51 Compliant

Supports G51 standards for seamless integration into the global supply chain.

Live KPI Tracking

Real-time dashboards provide visibility into system performance and bottlenecks.

System Integration:

Designed to connect with your existing packing line automation for smooth implementation.

Simplify your packing process

Get in touch today to see how FreshTrack's innovative solutions can work for you.
